

BI-RADS (BREAST IMAGING-REPORTING AND DATA SYSTEM) CATEGORIES AND ODS-C CONSIDERATIONS

BI-RADS CATEGORY	DESCRIPTION	REGISTRAR CONSIDERATIONS
0	Incomplete Need Additional Imaging Evaluation	Wait for follow-up imaging before abstracting or staging.
1	Negative	No malignancy; record for patient history if applicable.
2	Benign Finding	Record if relevant to patient history, especially with previous cancer.
3	Probably Benign (Short Interval Follow-up)	Monitor for any change in category; reassess if upgraded.
4	Suspicious Abnormality	Ensure follow-up biopsy or additional diagnostic workup is completed.
5	Highly Suggestive of Malignancy	Confirm malignancy with biopsy; proceed with staging if confirmed.
6	Known Biopsy/Proven Malignancy	Malignancy confirmed. Complete abstract with full documentation of the cancer diagnosis and treatment as required.
